

## REMARKS

The Examiner pointed out that Claims 1 and 5 are rejected under 35 U.S.C 102 (e) as being anticipated by Tang (U.S Patent No. 6507416), and Claims 2-4, 6 and 7 are rejected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

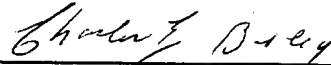

First of all, the applicant submits that the prior art referred (US6, 507,416, Tang) doesn't disclose detail enough as to how to change the distance between the light source and the document and how to move the light source up and down. (See Column 3 lines 57-59 and claim 8), so it is doubtful that Tang can implement the invention.

To differentiate, Claim 1 has been amended in order to narrow the scope of Claim 1. Furthermore Claim 5 has been cancelled, thus the rejection under 35 U.S.C 102 (e) would be removed and the amended claim 1 is believed to be allowable.

Claims 2, 3, 4, 6 and 7 would be allowable since they are dependent upon an amended base claim 1 which is thought to be allowable.

Courtesy, cooperation and skill of Examiner Houshang SAFAIPOUR are appreciated.

Respectfully,

CHARLES E. BAXLEY
